

WATCH YOUR STEP WITH

SAFE-T-GUARD

ROOF WALKWAY MATS

Rooftop Safety

National Rubber Technologies Corp.'s Syamar® Safe-T-Guard mats have been engineered with raised buttons on the surface, ensuring positive traction in all weather conditions. Water is channeled below the safety surface reducing the chances of slips and trips.

Easy Installation

Safe-T-Guard Roof Walkway Mats are manufactured using Syamar® masticated rubber which can be firmly adhered with compatible commercial roofing adhesives. For even easier installation, Safe-T-Guard Mats are available with a specialized PSA tape for simple peel and stick installation.

SPECIFICATIONS		TOLERANCE
Thickness:	5/16"	+/- 0.020"
Width:	30"	+/- 0.250"
Length:	30"	+/- 0.250"
Weight:	8 lb.	
Standard Pack Size:	50 mats./skid	

Made with

Durability and Protection

Safe-T-Guard's durable Syamar® rubber compound ensures maximum protection for valuable EPDM and PVC roofing membranes. Safe-T-Guard Roof Walkway Mats eliminate surface wear on membranes in high traffic areas, while greatly reducing the chance of membrane punctures. Year after year, Safe-T-Guard Roof Walkway Mats stand up to all weather conditions.
